...

10 years ago, I dev'd an [#Umbraco](#) pkg, Robots.txt Editor. I learnt how to add a custom tree, create an editor panel, do validation & notifications. A great learning experience.

With Umbraco v8 due soon, here's an opportunity for a newcomer to pkg dev...

A screenshot of a GitHub issue post on Twitter. The post is from user [leekelleher](#) on the repository [leekelleher/umbraco-robotstxt-editor](#). The title of the issue is "#4 Support for Umbraco v8". It has 9 comments. The post was opened on February 19, 2019. The URL of the issue is [Support for Umbraco v8 · Issue #4 · leekelleher/umbraco-robotstxt-editor](#). The image shows a green progress bar at the bottom of the tweet card. The tweet is from [github.com](#) and was posted at 9:29 PM on Feb 19, 2019. There are 2 replies, 8 retweets, 23 likes, and 1 bookmark. A reply from user [Emma Burstow](#) (@EmaBurst) is shown, asking if they can interview for the position. Lee Kelleher replies with a thumbs up icon.
